LOST PET

Cookie from Woodstock

Contact: markoathome@gmail.com

Location: Baumgarten Rd

Date : April 23, 2016

Cookie is 5lbs. Her back knees formed incorrectly so she bears most of her weight on her front paws. We rescued her back in December. She is a sweet little girl and our family loves her dearly. Our 2 year old son has been singing songs about her since she disappeared. She was wearing a collar with a heart dog tag on it with her name. Please contact me if you have any information.

She has been missing since 4/17/16.
