Location: 195 Morey Hill Rd

Date : May 11, 2016

About 2 weeks ago this friendly cat took up residence on our deck on Morey Hill Rd in Woodstock/Kingston/West Hurley area. Looks like either a neutered male or a female, with no collar, but clearly is used to a home/people as he/she sometimes paws the window asking to be let in. It has been sleeping most of each day day and all night out on our deck, but we can't let it stay

because we are afraid it will end up having a fatal encounter with one of our dogs. If no one contacts us to claim it, then we will be trying to get it into a shelter this week.
