Rion went missing in Stone Ridge, Washingtonville, N.Y. on Saturday the 10th around 5pm. He is an indoor cat and extremely skittish when he gets outside; noises and movement tend to scare him when he's not at home. He doesn't have a collar on, is a large cat, though not overweight, a gray and black tabby.

I imagine he may be lured with tuna. Any information will be greatly

appreciated.
