A racing pigeon has been hanging out at my house on Stevens Place on Chester, NY for a few days. We have 5 wild bird feeders so I suspect it is eating the seed that is on the ground. We are not sure if it's lost, hurt or just recovering before it continues in a race. We are not able to get close enough to get the information on its band. Please contact my son Dan at 845-467-1449.
