Found a really pretty long haired calico cat in my yard today—it's very, very vocal and is trying to get into our house! It is incredibly sweet and friendly, purring and rubbing against my legs. If anyone in the Pine Bush area is missing this little guy/girl, let me know! It doesn't have a collar so I have no idea if it's just an outdoor cat or if it's lost. It does feel pretty skinny and it

drank a lot of water when I offered it some. 8-10 lbs, fairly large build like a Maine Coon, but skinny. Has a very fluffy long tail. Probably a female. Very vocal and affectionate.
