Found orange male cat (guessing young 1-4 yrs old?) in West Nyack/Valley Cottage border. Friendly, vocal, will come in the house. Have seen for about 1 1/2 months. You can pet and he loves to look in the windows to see indoor cats. Starting to get a little scared and meows and swats at you occasionally – probably from being outside. Providing heated outdoor shelter and food, but

he really looks to be missing his home. Please share.
