PLEASE HELP. My parents' cat, Buzz, is missing. They are elderly and have

had him for almost 10 years. Buzz is a black male cat, has green-ish eyes, is approximately 10lbs, does not have a collar, and has a microchip. He is probably very scared and hungry. We, especially my parents, are all very distraught. He's been missing since Monday, 4/25/2016. We believe that he may have slipped out when my dad opened the front door.

If anyone in Yonkers, NY 10710 and surrounding areas can keep an eye out and please pass this along, we would be very, very grateful.
