LOST PETS of the HUDSON VALLEY

FOUND PET

Found in Clinton Corners

Contact: alonindustries@aol.com

Location: 1665 Bulls Head Road

Date : January 7, 2018

Someone knocked on our door on Friday night and said that he is a contractor working on Shelley Hill Road in Clinton Corners / Stanfordville and that the cat jumped into his truck and ate his sandwich and we got the impression he would not leave till we took the cat in.

Judging by how thin she is, she has been lost for two to three weeks, maybe more.

Took her to the vet, did not have her examined, got her scanned for a chip and she doesn't have one. She does have a collar for fleas and ticks and no name tag. We did give her advantage multi to de-worm because I did not want her to be in the cage.
