Date : October 12, 2018

Found this cat trying to come in my house in Hillsdale, NY. Very friendly, affectionate and def seems like a house cat. Brought him to the vet, he has a microchip, but it's not registered to the owner. I am keeping him safe until we can find his owners or a safe home. Anyone recognize this cat?? Please contact me immediately (or if you are interested in fostering, I have two other

cats and can’t keep him) or any advice on what to do.
