LOST PETS of the HUDSON VALLEY

FOUND PET

Found in Putnam Valley

Contact: 914-467-0056

Location: Bryant Pond Road

Date : November 23, 2018

Female calico tabby cat found on Monday, November 19th 2018, off of the Bryant Pond Road (southbound exit off of the Taconic). She was taken to the vet and no microchip was found. However, x-rays were done and showed she had a broken femur that was operated on at some point. The vet believes she is about a year old. I would love to find who she belongs to, she is such a

sweet girl! If you know any information or believe she is yours, please contact Ariana @ (914) 467-0056.
