LOST PETS of the HUDSON VALLEY

LOST PET

Harry from Somers

Contact: (914) 760-8714

Location: Heritage Hills and Lovell Street

Date : January 8, 2019

Harry is a black cat with a small patch of white on his chest who has always been an outdoor cat. We moved a few miles away from our house in the Purdys/Somers area to a condo in Somers in Heritage Hills. He went outside many times with his sibling cat until about 3 weeks ago when he went out at night and couldn't find his way home. He only came through our back deck,

not the front door. He got confused with the condos that have similar decks and hasn't been able to find his way home. He is a very sweet but skittish/shy cat who doesn't always trust strangers so can get easily spooked. Food, at this point would help entice him. Please call if you think you've spotted him. He could be still in Lincolndale or beyond. I was hoping he would try to get back to our other home, on Carolyn Way near Purdys but the sightings show him going towards Lincolndale. Please call (914) 760-8714.
