Very friendly male cat found on Forest Valley Rd (Valleydale Neighborhood), Pleasant Valley, NY. We've been feeding it for a week along with another neighbor across the street. It meow's non-stop on our porch or deck even though it appears to be healthy and not in pain. I'll take it to the rescue center tomorrow to have it chip-scanned but I don't believe it has one. It is not

aggressive towards my other cat or people for that matter.
