2 Cats missing from Tanners Lane in Hudson, NY. One is orange with a gimpy hind leg (she was born that way) and is on medication for her digestion. The other is an older grayish female with longer fur. She is very skinny, because she has renal failure, no matter how much we feed her plus a grain allergy. We think someone with a kind heart may have taken them, mistakenly thinking

they needed medical care. Please call or text Beth at 518-821-5195 if you know of their whereabouts, as we are quite worried about them. Many thanks!
