MISSING AWESOME & LOVED FLUFFY CAT

Got out Thursday Night but has not come back

Likely to be in a radius off of Water Trough Rd. between Route 1 & 2

I know there is a lot of woods in the area, I am trying to remain hopeful that he is not far and ok. Not sure if he hid away in a shed with the thundershowers, lost his way or lost in the woods or if he has been scooped up. He has been spotted down by Route 1 the other day, but has not seen recently. Also, he was seen going up Water Trough towards Route 2 - so I am unsure which way he journeyed off to :(

He is a fluffy cat that is off white in color, and, has grey ears, paws, tail and face. He has a semi flat face, he is a handsome boy with an angry face with blue eyes. He is not fixed. He also has a strip shavened underneath him on his side, from burrs/matts. He name is Frylock - he is very loved and oh so missed! :(

Please keep an eye for my little guy. If spotted or found please contact me on Facebook, message, comment. Thank you so much, your help means so much to me, I appreciate this BEYOND WORDS!

His name is Frylock. Himalayan. Creamy white in color with a grey tail, paws, ears and face. Grumpy “angry” semi flat face with blue eyes. Shaven strip under him on his side, due to burrs/matts. Got out Thursday 5/30 off of Water Trough Rd in South Berne, between Route 1 and Route 2.
