LOST PETS of the HUDSON VALLEY

LOST PET

Clyde from Somers

Contact: 914-715-2390

Location: Heritage Hills

Date : July 29, 2019

Clyde is a polydactyl cat with big white paw with black paw pads. Notice he has a white chin and a black nose. He is very friendly, but may be scared outside.

Clyde and his sister Bonnie, beloved Little Orphan Animals cats were adopted

by a home in Heritage Hills on the West Hill. Clyde accidentally got out of a loose screen and we have not been able to find him yet. We are all sick over not knowing where he is and are trying everything possible to find him. He spent 2 years roaming free with his sister Bonnie at our Peekskill Adoption Center where he was loved by all the volunteers. He is lost somewhere where he lived less than two weeks and we don't think he can find his way home. If you see him please call immediately so we can get our sweet boy back to safety.
