Velma is missing. I believe she got out through an open door earlier today. If anyone has seen her please let me know. She's skinny and isn't an outdoor cat. She may still be wearing a collar with a Frozen tag with her name on it. She usually comes when her name is called. She's friendly and may come up to you. She has a soft meow. Please please please return her, she's means so

much to me and I’m worried sick for her. Contact 845-416-5549 or 845-471-8976
