My female cat Phoebe is missing last seen yesterday morning 7/21/19. She lives at 32 Roe Street or could have hopped in a car not knowing with the windows down and maybe on Farries Avenue, both located in Florida, NY. She is an indoor/outdoor cat and is spayed. Her neck pattern looks like she is wearing a necklace black stripe with white center pendant like fur pattern.

Orange with spotted black and black stripped raccoon like tail fur pattern. Her right ear tip has a little nick missing on the tip. Keep a look out for her, we really miss her! Help us find Phoebe! Thank you ????
