My Doberman Remi is a 1 year old with floppy ears, one blind eye, and is still dragging around a 6 foot leash. She's very friendly but very scared and will run away from people. She went missing on July 5th 2019 in the woods behind the Lake George Log Jam when she was being chased by people and was last spotted on the lake George bike trails. We found bloody paw prints but I

couldn’t tell if they were hers. Please if anyone sees her call me at 518 415 9590. She’s terrified of people so avoid approaching unless you’re confident you can grab her leash.
