Lana is a rescue kitten we've only had since November 19. 2019. We have grown to love her as she has begun to trust and play with us. On Saturday night she jumped out of 2nd floor window that was open. We didn't realize she would do this and we didn't know she'd done until morning.

We spent yesterday looking for her and talking to friend and googling ways to find her. We heard some crying in the wood near our home but we can’t even be sure it was her. We were out looking throughout the night with no sign of her and we are worried for her health and safety.
