My cat Butters ran away last night around midnight. I stepped outside and he ran out around me. He's an indoor/outdoor but we just moved him in last night to our new home. We moved to 3230 Lexington ave in Mohegan Lake from Mohegan Ave about a mile away. I'm worried that he's gone looking for our old house as he wasn't happy about the move. Please anything you can do to

help it so greatly appreciated, i’m worried sick about him.
