Sable German Shepherd, 6 1/2 years old, no collar or microchip, has one chipped k9. Was hanging out on the deck with our grandparents and they went inside for a minute to grab something to bring out on to the deck to eat, when they came back out he was gone. Happened Wednesday night 7 pm. **Image is from the internet, it's what he looks like but its not him. I don't have my phone connected to upload an actual image.
