**Location: 327 Upper Cherrytown Rd**

**Date : July 8, 2020**

**FOUND: Male cat on Upper Cherrytown Rd in Kerhonkson. The vet said he's about 5 yrs old is neutered and does not have a microchip.This friendly kitty has been coming to to our yard for a long time. I used to assume he was just a neighbor's cat visiting us. Then I released he was living under our house and he was always very hungry. He would lick the bowl clean if we gave him wet**

**food and eat every last nugget if we gave him dry. He was also starved for attention and would beg for someone to pet him. We have asked around but no knows whose owns him.**
