Location: South Mountain Pass

Date : January 8, 2021

Cat has been coming to my door for food on and off since July 2019. He has gotten bigger since the first year. Sometimes he does not show up at all for a few days and other times he comes here and eats many bowls of food at one time. It looks like someone cut his fur to get the knots out at one point. Long-Haired beauty, not sure what kind...tabby? He comes into the house but

prefers to eat outside, very nervous, but lets me pet him and loves it.
