Miso is a super outgoing and friendly cat. Loves to get all the attention and be wherever you are at all times. He is almost a year old & not neutered. He is both outdoor & indoor cat but ran out the house yesterday around 1 pm in Peekskill and I haven't seen him since. If you see any similar cats that look like Miso or even if you can share the post it would mean the world to me.

Getting one step closer to my furry friend is the most important thing to me.
