My 10-month-old male cat, Blaze, has been missing since Monday. He is an indoor/outdoor cat and has never been gone a day. He regularly plays with two other cats — the three are buddies — so, it's very unlikely he ran off without being attacked/pursued, etc. Blaze is silky black with a white patch (thus, his name Blaze) on his upper chest. He's very friendly. Just a great cat. He was last seen in the Granite Springs section of Somers. A reward is offered for his return. Email: nhaggerty@lohud.com.

Thank you.
