**** Paul is a foster rescue from the south and has only been in NY for a week. He came to us last night, so he does not know “home”. He will not come to you, so if you see him, just stay with him and contact me. He was kenneled with other chihuahuas, a husky and most recently a rottweiler, so he is comfortable with other dogs that are friendly. He is an adult, but only about 5**

pounds, and underweight. He has a blue plastic collar on. Please check your backyards, sheds, etc. as he is most likely hiding in a sheltered area. He has a high pitch howl.
