Our beautiful one year old Weimaraner, cattle dog, lab mix, male, and our four-year-old lab beagle mix, female, escaped from my yard today by chewing a hole through the thick fence under our deck. The dogs do not have their

collars on because we had gave them a bath and they were on the deck drying they escaped from the deck into the yard and then escaped from the yard in less than 15 minutes. They have now been missing for over four hours. If anyone can help please call us at the above number or at 908-930-8222
