LOST PETS of the HUDSON VALLEY

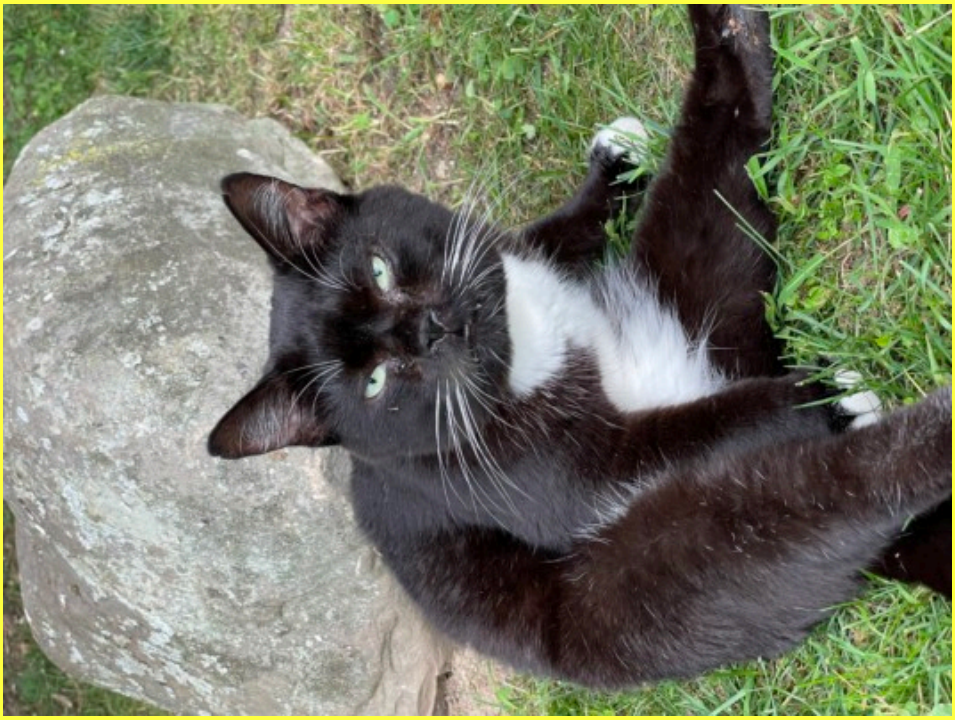
FOUND PET

Found in New Paltz (Sponsored by Kimlin Energy)

Contact: 917.453.5221

Location: Carroll Lane

Date : August 15, 2021



This handsome snuggle bunny found us last week in New Paltz / Platekill and has been hanging out at our house ever since. I took him to the vet Monday and he is micro chipped. He is a neutered male who was chipped in 2018. Apparently his name is Charles Bradley, according to the microchip company, Unfortunately, Home Again will not give me any other information about him

but they have left three voice messages on his “parents” voicemail with my contact info. His owners have not called me. ⍰⍰ He is extremely friendly, was clearly very loved, loves to snuggle and is wearing a Seresto flea collar. He’s great with kids and is very patient and gentle. Seems like he was an indoor/outdoor cat as he meows to get outside if he’s inside too long. Does anyone know anything about this cat or how to reunite him with his owners? Pretty sure Mr. Charles Bradley would love to go home if he can and we would like to see him reunited. Text Jocelyn 917-453-5221.
