This cat was at my front door (which has a roof over it) last night meowing sadly to come in. I didn't let him because my cat was going crazy. When I called him to come to the garage he didn't come. I first saw him about 7::30 pm and he was there at least until 11 or later. I put food out but it was untouched this morning.

I live next to Sky Acres Airport and there are outbuildings where he might have found shelter.
