Whinzy got lost on 10/15. He's a domestic short hair and is tan with white patches on his neck and lower belly. He also has white paws. Whinzy was also wearing a red collar with a bell on it. He's 4 years old and I've had him since

he was a tiny kitten. He’s treat driven, but also very shy with strangers. If he warms up to you he may ask for belly rubs though! If anyone sees him, please let me know! I miss my little guy!
