LOST PETS of the HUDSON VALLEY

LOST PET

Roxy from Poughkeepsie

Contact: 845-232-3971

Location: 28 Whittier Boulevard

Date : August 15, 2017

Roxy has been lost since before 4:30 pm on August 13, 2017. We thought she was hiding, but we tried everything including looking all over and shaking her treat bags which usually makes her come running. She's an indoor cat, but it's a huge possibility that she ran outside through the garage door without my mom noticing. She likes to follow us around and sit by doors because she

likes to try to go outside in our backyard. She's a fairly long cat with a really long tail, super shiny black coat with white fur on her chest and belly. She's shy when other people come around and she responds to "Roxy" and "Rox".
