Razzles is a neutered male, about 13 lbs with a clipped left ear. He's an indoor cat and didn't have a collar on. He got out of the house 2 weeks ago and was staying close by but we haven't seen him at all in 3-4 days. He's very sweet but may be a bit skittish because he's in unfamiliar territory. We miss him so much and hate knowing he's out in the cold instead of curled up on a soft bed. Thank you in advance for your help!
