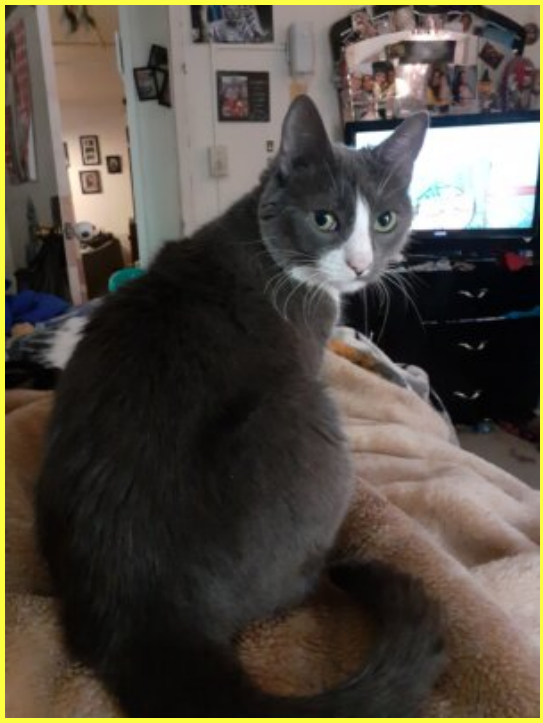
Date : April 19, 2023



She is a gray and white tuxedo cat (white from her chest to her front and back paws and face). On her face her nose has a gray spot on it which might look like a scar. She has green eyes. She's a little bit shy but might come up to other people.

Please help us find her as she's a precious family pet and has been with us

for a little more than 10 years.
