He's not fixed yet, I rescued him as a feral from Indiana where he was starving and had been shot by locals. He's timid and shy around people but he will come to you if you have food (wet or dry, he isn't picky) and he's on the smaller side with a blocky head and a slightly bent ear on the right side of his head at the tip. He also has a noticeably dark orange circle pattern on his right side, it's quite large.
