LOST PET

Jasmine (Jazz) from Hopewell Jct

Contact: Katelyn.croniser@gmail.com

Location: 25 Croniser Dr

Date : October 1, 2017

MISSING

SINCE 9/8/17

JASMINE (JAZZ)

Jasmine is still missing! Jasmine also called Jazz, is a sweet, loving cat that was rescued and is now part of our family. She is an indoor cat that does not go outside at all. She is **easily frightened** by any type of noise, activity, or strangers, and **will no approach** people when they call for her. Jazz likes to is **very fast and likes to hide**, she has been spotted in close proximity to our house on a few occasions since she's been missing. Due to the temperature dropping and the loud coyote howling every night, it is most likely that she is hiding close to a house. **We are very worried about her because of the distressed state she was last seen in**, and please urge everyone to check their garages (this is the most likely spot she will be hiding), sheds, or anything that she could possibly take shelter in. We have searched for days (and nights) and have set up have-a-heart traps , but she is not going to come out of hiding on her own. We miss her very much and our house is not the same without her.

Jasmine is a **female**, **black and white coloring**, and wears a purple floral break away collar with a pink ID tag on it which may or may not still be on her. She is **spayed** and **up to date on all her vaccinations** (ACE Veterinary in Hopewell Junction has all her records)
