PLEASE SHARE!!!!! ?????????

I have since been temporarily fostering this cat for 3 days. He is not microchipped or neutered. I have taken him to the vet to receive a rabies vaccine. Additionally, a stool test ran negative for worms. The vet estimates his age to be around 1.5 – 2 years old.

PLEASE SHARE to find this sweet boy's owner!!!

If the owner is not found and you're interested in adopting him, please private message me. He is very sweet, well-mannered, and friendly. He loves to lounge. Only those who are truly willing to care and love for this sweetheart will be considered. Thank you! ??
