I haven't seen my indoor/outdoor cat, Gem, since yesterday morning. She doesn't go far and never misses a meal so I'm worried about her. She's a long-haired muted tortoiseshell, grey with cream markings and green eyes. She's very friendly, rubs up against whatever vertical surface is available when she sees you and loves treats. We live at the top of West Shore Drive in Putnam Valley. If you've seen her, please let me know.
