Location: 140 North Putt Corners Road

Date : December 28, 2024

Found in my garage an un-neutered, male cat with the below description:
– 12 weeks
– not neutered
– not microchipped
– ear mites, fleas and upper respiratory infection
– presumed feral by the vet, but used a litter box promptly hence my concern

it may have previously been in a home
– no littermates found yet
– solid black with one tiny spot of white

Will require photo of the cat and/or adoption paperwork to return to avoid opportunistic responders.
