LOST PETS of the HUDSON VALLEY

LOST PET

Swirly from Putnam Valley

Contact: (845) 745-9980

Location: Dunderberg Road

Date : March 22, 2018

During the terrible Nor'easter that swept through the Hudson Valley on Friday, March 2nd, a tree fell through our home, scaring away our companion animals. All of which have returned safely to us, other than our beloved Swirly. Since then Swirly has not been seen, and our hearts are aching, assuming the worst due to these many horrific storms.

Swirly is not hard to miss. He's a very big boy, the biggest cat you'll probably ever see. He's also very, very sweet, affectionate and friendly. He's talkative and animated as well.

Even if you have only think you spotted Swirly, please contact me, our family is heartbroken, frantically searching for him everyday, any information at all will be appreciated. Our home was located in the Oscawana Lake area, so that is where he most likely will be wandering.
Thank you for taking the time to know of Swirly and his story.
