Date : September 18, 2018

A male cat walked into our yard on 9/17/18. Very friendly and lovable. He has to belong to someone. We are trying to keep him safe by feeding him and leaving water. We can not bring him in our house being we have a declawed male cat already and he still has his claws. We would love to bring him inside. He seems to like staying on our back patio. We have posted his picture in local post office & grocery stores. I hope he is reunited with his owner soon.
