Missing since Aug. 9th.

Hello,

I am trying to do everything I possibly can. My 5-year old daughter's cat (2-year old orange tabby with extra toes) has been missing since August 9th. We as a family are devastated that he's gone from home but know he's out there somewhere. Our hope is that someone has him in their home and is taking care of him. He and my daughter are very bonded and usually sleep together every night. Please help us find our Maui!! He is neutered and microchipped. Thank you!
