Date : December 8, 2019

Found stray cat on porch. Thought she was in labor and put her in spare bedroom. No babies. So took her to ER to see if sick or pregnant. Sick. But tests were more than I could afford. Opted to have fluids given to her, as she is severely dehydrated and malnourished. Will see how she does over the weekend. Will take her to local vet on Monday. Village of Wurtsboro ER didn't

check for microchip. Will have local vet check.
