LOST PETS of the HUDSON VALLEY

FOUND PET

Found in Chester

Contact: 202.494.2114

Location: 40 Dug Rd

Date : March 23, 2020

This cat has been coming to visit my porch nightly (week of 3/16/2020) and staying longer and longer. I usually know because I hear sounds of a cat fight even though my cat is inside! I think it might be lost because it looks relatively clean and cared for, but no collar. It's been showing up in the middle of the night and I'm concerned since it's turning colder again. It was there looking at

me long enough for me to get a photo last night which makes me think it wanted inside. I tried, but it ran away when I opened the door (and stepped in the pee my cat sprayed, eew). Bull Mill Rd/Dug Rd area near the Chester/Monroe border. I am setting out a carrier with food tonight for shelter. If you're familiar with the cat, please message me! Would like to know if it's missing or simply someone's outdoor/barn cat.
