Help! I've lost my female black cat. She's about 9 pounds, very small but full grown, a couple of white furs on her chest and meows crackly like. The last I've seen her was about 10pm last night (March 12th). She's a bit shy and feisty but would follow you around if you have food. She hopefully should be around Garnerville or West Haverstraw area so if anyone finds her, please

give me a call or leave a voicemail.
