Two (2) Dogs SPOTTED in Walden

Contact: 845-242-9715

Location: 30 Brazien Ct

Date : July 6, 2021

Two mid to older dogs covered in burrs and I think they were in a stream or lake- came into my yard at 30 Brazien Ct Walden, NY. One was an older brown New Foundland type Mix with an electronic fence collar and red collar with tags name “Ossining” address 46 St Andrews Rd Walden, NY. His buddy “ was a lab, shepherd maybe terrier mix, light brown white on his snout named

“Rocco”. They were hot so they were sleeping in the shade on my lawn. Very friendly,very well behaved – knew “sit” and “paw” and were hanging out in my porch sleeping for a while. This is the second time I’ve seen them in a week. The tag phone number one was no longer in service but the other was 845 629-4501 and my husband left a message. St Andrews runs behind a field and barn behind my house and they’d have to cross this busy road to get here and they seem so friendly sweet well behaved and goofy, I’m not sure how sharp their canine instincts are. My husband only got a photo of the tag because I was sitting with them trying to hold the tag.
