Date : September 13, 2021

Ladybug “bug” is horribly missed, she has a great life and a super loving family and home.
We are heartbroken not having her home with us! Please help her get home!

She is a miniature Doberman pincher / pitbull mix.
She's 4 & half years old.
She is very sweet as a scar above her right eye,
she has a tendency to be a bit timid at first but warms up quickly.
She's very very sweet.
She's chocolate colored with a little bit of white on her.
She does not get along with other dogs!
She is very unpredictable when it comes to her being near other dogs –
Lady bug is microchipped , UTD on everything.
Please please help us!!

We live in poughkeepsie but someone reported that they saw her in Vermont!
There is a reward if you get her home!!
