Rolling Meadows, Hurley, NY. My Sphynx cat (hairless) has been out since around 9pm Sunday night. He is an indoor cat. His name is Bixby. He lives for "fooooood" and will usually come to that call. Although I don't know if he will from outside. I'm so worried he was out in this cold. He is microchipped. If you take him to vet, they can find us. PLEASE keep your eyes open for him!
