**Jesse and I were visiting on St Andrews Rd Walden NY on June 2 2022. As I opened the car door she heard pistol shots from a near by pistol range....she ran into the woods. I have not seen her since. She's very friendly. There are**

**posters all over the Walden area. The picture in the poster shows her as having a white head but she's all brown. White front legs. Looks like a poodle with short curly brown hair.**
**Please be aware that she may have been picked up and someone is claiming her as theirs.**
