Location: 88 Bergen circle

Date : January 23, 2023

Found. We think it's a male. He's been hanging around our porch. Kinda scared of people and can't get close. We've been feeding him for about a week or so. Starting coming around a few weeks ago. No collar. We've never seen him before that. We have a little shelter for him outside, but he won't get close enough for us to get him inside.
