Location: Black Meadow Rd.

Date : February 27, 2023

I found a kitten. She seems friendly. Has been hanging out for a little less than a week. We trapped her (not too sure of gender yet. So, I'm using "her" without knowing) tonight. I am going away for a few days and I foster on a regular basis for Amy Montilla. She came and picked her up from me tonight because we did not want to leave her out in this storm that is coming. Going to see if she is spayed or neutered and microchipped. Amy may reach out to

you to post her on your site but I figured I'd reach out to you too. What information do you need from us? Thank you so much for all of the work that you to to help family members get home and reunited safely!!!
